

SCHEDULE

16. 9.		
14:00 - 14:10	Welcome speeches	Jan Lenart – Member of organizing committee Jan Hradecký – Dean of the Faculty of Science, University of Ostrava Jan Urban – President of the Commission on Pseudokarst UIS Zdeněk Motyčka – President of the Czech Speleological Society Tomáš Hrubíš – Mayor of Kunčice pod Ondřejníkem
14:10 - 14:30	František Jaskula	Protected Landscape Area Beskydy
14:30 - 14:45	Jan Lenart	Geomorphology of the Moravskoslezské Beskydy Mts. – an overview
14:45 - 15:15	Włodzimierz Margielewski and Jan Urban	Gravitationally induced caves in the Outer Carpathians – their genesis, classification and age
15:15 - 15:45	<i>coffee break</i>	
15:45 - 16:05	Jan Lenart and Josef Wagner	Pseudokarst of the Moravskoslezské Beskydy Mts.
16:05 - 16:25	Václav Škarpich and Josef Wagner	Crevice-type caves of the Moravskoslezské Beskydy Mts. as important part of bats habitat
16:25 - 16:45	Josef Wagner	Pseudokarst movie
16:45 - 16:50	Jan Lenart	Information about field excursions
18:00	<i>dinner</i>	
17. 9.		
8:00 - 9:00	<i>breakfast</i>	
9:00 - 9:10	Dalibor Kvita	The Podbeskydí National Geopark – stone and life
9:10 - 9:35	Jan Urban, Wojciech Gubała and Włodzimierz Margielewski	Variability of caves conditioned by morphogenesis and lithology - Homole Gorge (Polish Carpathians) case study
9:35 - 10:00	István Eszterhás (presented by George Szentes)	Speleothems of non-karstic caves
10:00 - 10:25	Michał Zatorski	The Mroczna Cave in Magura Wątkowska mountain range - stages of development based on the joints morphotectonic analysis
10:25 - 11:00	<i>coffee break</i>	
11:00 - 11:25	Rudolf Pavuza	Spring tufa caves in Austria
11:25 - 11:50	George Szentes	Caves formed in the effusive rocks and in their tuffs described in the digital list of the non-karstic caves in Hungary
11:50 - 12:15	Ivo Baroň	Pseudokarst Caves in Active Tectonic Zone of Mur-Mürz Fault (Eastern Alps)
13:00	<i>lunch</i>	
14:30 - 14:55	František Kuda and Jan Divíšek	History of caves documentation in the Ledové sluje (Ice Caves), Podyjí National Park, Czech Republic
14:55 - 15:20	Jiří Adamovič and Miroslav Coubal	Orthogonal jointing in sandstone – possible causes

15:20 - 15:45	Martin Kašing	Cave airflow mechanism of the Velká Ondrášova jeskyně cave
15:45 - 16:15	<i>coffee break</i>	
16:15 - 16:40	Jan Lenart	The Cyrilka cave - longest crevice-type cave in Czechia
16:40 - 17:05	POSTER SESSION	
	Michał Zatorski	Water in the caves of Polish Outer (Flysch) Carpathians (Beskidy Mountains)
	Martin Slavík	Effect of lichen cover on sandstone surfaces: Quantitative study of hydraulic and mechanical properties and erosion
	Jaroslav Řihošek	Sandstone landforms: Effects of loading stress on spatial distribution and rates of erosion
	Jana Schweigstillová	Study of rapidly recessing sandstone overhang
	K. Móreh, I. Gergely	Tree Mold Caves in Mures Gorge, Transylvania
	Dalibor Kvita	Historical iron ore mining in the Podbeskydí region
	Grzegorz Klassek, Jerzy Pukowski, Tomasz Mleczek	Progress in exploration and registration of the caves in Polish Outer Carpathians in 1999-2014
18:00	<i>dinner</i>	
19:30	meeting of pseudokarst commission	
18. 9.		
7:00 - 8:00	<i>breakfast</i>	
8:00	ONE DAY EXCURSION	
19:00	<i>ceremonial dinner</i>	
19. 9.		
8:00 - 9:00	<i>breakfast</i>	
9:20 - 9:45	Petr Tábořík, Filip Hartwich, Josef Stemberk, Jiří Kopecký and Oldřich Jenka	Structural and tectonic control of the sandstone mesa as revealed by ERT: preliminary results from Ostaš and Hejda Mts.
9:45 - 9:10	Jaroslav Řihošek	Sandstone landforms: Effects of loading stress on spatial distribution and rates of erosion
9:10 - 10:25	Martin Slavík	Effect of lichen cover on sandstone surfaces: Quantitative study of hydraulic and mechanical properties and erosion
10:25 - 10:50	Jan Lenart and Lukáš Šesták	The Slámova sluj cave – pseudokarst in limestones
10:50	closing ceremony	
12:00	<i>lunch</i>	
13:00	AFTERNOON EXCURSION
